Stay Connected

Forward To A Friend

Dear members of the ISZB,

First of all, I would like to send you my best wishes for your safety and health during this virus crisis. The COVID-19 pandemic is directly or indirectly affecting every one of us, not only as ISZB members, but also as members of the global community. I hope you and your loved ones continue to take the necessary precautions to stay away from harm's way.

Next, I would like to thank you, ISZB members, for honoring me with your confidence and vote for President-elect. I am also immensely grateful to the colleagues who nominated me to such an honorable position. I will do my best to contribute positively to the administration of the ISZB by supporting our society's President Lothar Rink, and, together with the Board members, to effectively prepare myself to become the next President of the society. I truly look forward to continuing to work with you, and for you, to promote the ISZB as great scientific society where all of us, zinc-related biologists, can continue to interact and thrive.

Thank you again for your support. I look forward to seeing all of you in Aachen, Germany in August 2021!

Be well,

Toshi Fukada, President-elect of ISZB
